

4TH EDITION

# The European Union: Readings on the Theory & Practice of European Integration

Brent F. Nelsen and Alexander Stubb, editors

## Praise for the previous editions:

*“In a little over three hundred and fifty pages, The European Union manages to provide a thoughtful grounding in the political and theoretical works that continue to dominate the study of European integration.”* —Paul Riseborough,  
*Journal of European Affairs*

*“This is, undoubtedly, the reader of choice for undergraduate and graduate courses on the European Union and regional or global governance.”* —Osvaldo Croci,  
*Journal of European Integration*

The fourth edition of this popular reader, thoroughly updated, introduces students to both the concept of a united Europe and to integration theory.

The expanded first two sections of the book now present the visions of the primary shapers of the Union and its fundamental documents, as well as early currents in integration theory. The completely revised third and fourth sections explore recent theoretical developments in theory and practice as the EU wrestles with economic crises, political unrest, cultural conflict, and international competition.

**Brent F. Nelsen** is professor of political science at Furman University. **Alexander Stubb** is Finland’s minister for European affairs and foreign trade.

3RD EDITION

# The European Union and the Member States

Eleanor E. Zeff and Ellen B. Pirro, editors

Praise for the previous editions:

*“Invaluable to all specialists, students, and academics working in the field of European studies and international relations.”*  
—Wojciech Woźniak,  
*Journal of Contemporary European Studies*

*“This valuable book offers an impressive ‘bottom up’ view of the new Europe.... [It] is a coherent and accessible overview of the striking diversity of the European dimension of political life across the member states.”*  
—Munroe Eagles,  
*IEUSS Book Reviews*

*“A rich and timely volume.... The extremely readable efforts to make sense of policy conundrums means the book may be used quite profitably in the classroom, and the very fact that all member states are covered testifies to the project’s considerable comparative breadth.”* —William M. Downs, *Journal of Politics*

Can the European Union survive repeated economic crises? If it survives, will it stay as it is or take on a new form? This new edition of *The European Union and the Member States*, fully revised and updated, addresses these questions as it explores the complex relationship between the EU and each of its now 28 members.

The country chapters follow a common format, considering: How and in what areas does EU policy affect, and how is it affected by, the member states? What mechanisms do the member states use to implement EU policy? What is each state’s compliance record? Covering the full range of political, economic, and social issues, the authors offer an insightful discussion of the interplay of EU initiatives with strong, existing national policies and traditions.

**Eleanor E. Zeff** is associate professor of political science at Drake University. **Ellen B. Pirro** is lecturer in political science at Iowa State University.

2ND EDITION

# Europe Recast: A History of European Union

Desmond Dinan

Praise for the previous edition:

*“A superb, eminently readable history of the European Union.... The book is a gem.... A good read for those of us who know the story, and an even better one for students who do not.”* —Steven B. Wolinetz, *International Journal*

*“A fascinating account that is not dull and dry, but rather full of idealism, bureaucratic intrigue, personalities and political entrepreneurs, ideological struggles, and fluctuating international complexities and environments. Dinan masterfully brings these all together to provide an excellent treatment of the European Community’s and later the European Union’s institutional and policy development.”*

—Peter H. Loedel, *EUSA Review*

Thoroughly revised to reflect a decade of recent history—and incorporating newly available archival material and the latest scholarship—*Europe Recast* tells the story of European integration from its modern origins in the 1940s to the challenges of today. The book is an essential guide to unraveling the complexity of the EU system in the context of modern European history.

**Desmond Dinan** is professor of public policy at George Mason University.
