Intelligence FOR Homeland Security

Spying: Assessing US Domestic Intelligence Since 9/11

Darren E. Tromblay

“Offers a bold analysis of post–September 11 domestic intelligence reforms—primarily but not exclusively focusing on the Federal Bureau of

Investigation (FBI) and the Department of Homeland Security.... A valuable contribution.”

—Douglas M. Charles,
Political Science Quarterly

Initiated in the aftermath of the September 11 terrorist attacks, have the reforms of the US intelligence enterprise served their purpose? What have been the results of the creation of the Department of Homeland Security, the Office of the Director of National Intelligence, and a reorganized FBI? Have they helped to reduce blind spots and redundancies in resources and responsibilities ... and to prevent misuses of intel-

ligence and law enforcement? How did a disaster like the Snowden scandal happen?

Darren Tromblay answers these questions in his thorough, often provocative, assessment of post–9/11 US domestic intelligence activities in the pursuit of national security.

Darren E. Tromblay has served as an intelligence analyst with the US government since 2005.

Nixon’s FBI: Hoover, Watergate, and a Bureau in Crisis

Melissa Graves

“A fascinating account of the FBI during a tumultuous period.”

—Richard M. Yon,
US Military Academy

In 1974, Richard Nixon resigned in disgrace. In 2020, Donald Trump was impeached. Both were investigated by the FBI, an agency under their control. How is it that the bureau is responsible for investigating the president it serves? How can it do so effectively? *Nixon’s FBI* confronts these questions.

Melissa Graves draws on groundbreaking research and personal interviews with several of the agents involved to take us back to the time of the Watergate scandal. Her new perspective on J. Edgar Hoover’s last days, his successor’s tenure, and the

many obstacles that FBI special agents faced from both their leadership and the White House reveals the always complex and often fraught relationship between the president and the FBI ... and makes palpable the ways that history repeats itself.

Melissa Graves is assistant professor of intelligence studies at The Citadel.

Offender Reentry: Beyond Crime and Punishment

Elaine Gunnison and Jacqueline B. Helfgott

“A timely, valuable and comprehensive discussion of research surrounding one of ‘the key criminal justice issues of our time.’” —David S. Bornus, *Corrections Today*

“A valuable contribution to the field.... [I] recommend it to scholars, students, and practitioners.”

—Stephen J. Bahr, *Criminal Justice Review*

“Bring[s] together and make[s] clear the rich range of statistical data that clearly establishes the perennial difficulties involved in achieving ‘successful reintegration’.... Highly recommended.” —Choice

“Gunnison and Helfgott discuss a critically important societal issue.... [Their] book does not offer a single simple solution to the problem of recidivism, but it does provide insight into what can be done to help reduce it.” —John Turner, *Criminal Law and Criminal Justice Books*

In this comprehensive exploration of the core issues surrounding offender reentry, Elaine Gunnison and Jacqueline Helfgott highlight the constant tension between policies meant to ensure smooth reintegration and the social forces—especially the stigma of a criminal record—that can prevent it from happening.

Gunnison and Helfgott focus on the factors that enhance reentry success as they address challenges related to race, class, and gender. Drawing on accounts from corrections professionals and former inmates to illustrate the real-life consequences of reentry policy, they shed light on one of the key criminal justice issues of our time.

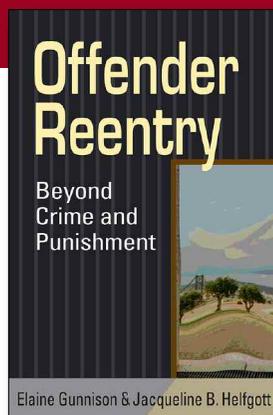

Elaine Gunnison is associate professor of criminal justice at Seattle University. **Jacqueline B. Helfgott** is professor of criminal justice at Seattle University.

NEW—2ND EDITION!

The Politics of Restorative Justice: A Critical Introduction

Andrew Woolford and Amanda Nelund

Praise for the previous edition
(a *Choice Outstanding Academic Book*):

“Woolford’s book can serve as a primer for those not schooled in this international social movement.... [It] can also serve as a reference for those who are aware of the existing critiques yet may need help in framing the issues and understanding the challenges and full potential for ideational change, which have not been clearly described before this groundbreaking work.... A must read for all concerned with the need for change in the administration of punitive justice.” —Choice

In this new, significantly revised edition of an acclaimed text, Andrew Woolford and Amanda Nelund reconsider restorative justice and its politics both globally and locally.

The authors clarify key theoretical issues while offering fresh perspectives and provocative questions. Observing that “transformative justice is an always unfinished project,” they ask how the approach might be more effective; and they explore in depth how intersecting sociopolitical contexts—gendered, racialized, and colonial, among others—contour the practice and potential of restorative justice.

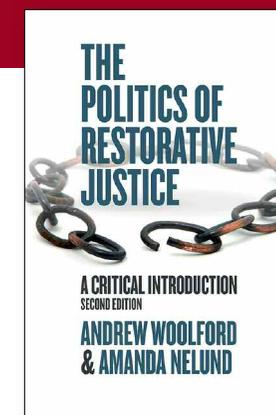

Andrew Woolford is professor of sociology and criminology at the University of Manitoba. **Amanda Nelund** is assistant professor of sociology at MacEwan University.

2ND EDITION
**Problem-Oriented Policing
and Crime Prevention**

Anthony A. Braga

“Should be used as a supplement in every undergraduate and/or graduate

police course.... Moreover, the book is an excellent read and resource compilation.”

—Brandon R. Kooi, *Policing: An International Journal of Police Strategies & Management*

Instead of merely reacting to crimes once they’ve been committed, can police agencies learn how to prevent offenses from occurring? Anthony Braga’s comprehensive analysis demonstrates clearly how the emerging problem-oriented policing approach is proving effective in preventing a wide range of criminal activities.

Problem-Oriented Policing and Crime Prevention is the only book recommended by the nonprofit Center for Problem-Oriented Policing for use in all modules of

its Model POP Curriculum, including courses at colleges and universities and training programs for police personnel.

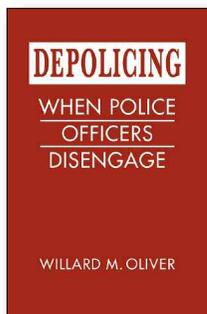

Anthony A. Braga is chief policy adviser to the Boston Police Commissioner and also senior research associate at Harvard University’s Program in Criminal Justice Policy and Management and at the University of California’s Berkeley Center for Criminal Justice.

Depolicing: When Police Officers Disengage

Willard M. Oliver

“In this clearly written, well-organized account, [Oliver] systematically reviews the phenomenon of depolicing, carefully discriminating between what is

mythical and what is substantive in relation to the claims about it.... Offers a valuable overview of a consequential contemporary American policing issue.”—Choice

“For individuals interested in understanding this phenomenon within the USA, they should first turn to Oliver’s Depolicing: When Police Officers Disengage.”

—Joshua T. Shadwick, *Policing*

Depolicing—the withdrawal from proactive law enforcement by officers on the line—has become an increasing concern within both police departments and the communities that they serve. Willard Oliver,

a former policeman himself, draws on extensive interviews with officers in a variety of jurisdictions to explore how prevalent depolicing has become, why officers engage in it, and what can be done to minimize it. With officer behavior under more and more intense scrutiny, *Depolicing* is a uniquely important contribution to ongoing debates.

Willard M. Oliver is professor of criminal justice at Sam Houston State University.

Gender Identity, Sexual Orientation, and Sexual Assault: Challenging the Myths

Corina Schulze, Sarah Koon-Magnin, and Valerie Bryan

“Sexual violence and the myths that surround this epidemic in the US are excellently introduced and explained by Schulze, Koon-Magnin, and Bryan.... Highly recommended.” —Choice

The underlying argument of this groundbreaking study is this: Sexual orientation and gender identity influence how sexual assault is experienced, how it is perceived, and ultimately, how victims (and perpetrators) are treated by the criminal justice system.

Focusing much of their work on the queer community—a community with a disproportionately high risk of sexual assault—the authors introduce the Identity Inclusive Sexual Assault Myth Scale

(IISAMS) to explore the unique aspects of sexual assault and the process of disclosure as experienced by queer victims. They also incorporate participant recommendations, collected during interviews, as they foreground ways for more effectively preventing and responding to sexual violence throughout contemporary society.

Corina Schulze and Sarah Koon-Magnin are associate professors in the Department of Political Science and Criminal Justice at the University of South Alabama. Valerie Bryan is associate professor in the Department of Sociology, Anthropology, and Social Work at the University of South Alabama.

Gender, Crime, and Justice: Exploring the Dynamics

Andrew Wilczak

“An excellent introduction [to] the dynamics of gender and the criminal justice system as a whole.”

—Shon M. Reed, *Criminal Justice Review*

“Ideal for undergraduates or students without a lot of background in sociological theory. Weaving together classical theories, recent empirical studies, and contemporary examples from the news and media, Wilczak presents the complex subjects of gender, intersectionality, and criminal justice in relatable ways.” —Choice

“Discussions are effectively punctuated with just the right amount of thought-provoking questions that lead the uninitiated through the unpacking of difficult concepts and invite them to experiment with different ways of thinking about gender, crime, and justice.... Issues that are highlighted are especially relevant to the interests of today's college students, and the price is right for class use.”

—Phoebe Morgan, *Gender & Society*

Exactly what role does gender play in crime, and in the criminal justice system? Addressing this two-part question from the perspective of the offender, the victim, the community, and the overall justice system, Andrew Wilczak provides an accessible introduction to the full range of issues involved.

Notably, this comprehensive text:

- Features an inclusive focus on both men and women.
- Encompasses theory, as well as realities on the ground.
- Draws on popular culture.
- Challenges students to ask difficult questions.
- Ties concepts to students' own lives.
- Incorporates an intersectional approach.

Designed to simultaneously engage and instruct, the book is ideally suited for classroom use.

Shots Fired: Gun Violence in the United States

Howard Rahtz

“This well-documented work will be a useful starting point for both academics and the general public engaging in the gun debate.” —*Library Journal*

“A highly readable, thorough, and insightful examination of mass shootings and other gun violence. *Shots Fired* is essential for all—from informed citizens and students to police and policymakers—who are concerned about how to stop these all too frequent tragedies.” —John Eck, University of Cincinnati

Mass killings. Gang violence. Street crimes. Suicides. Accidental shootings. The United States is enduring a literal epidemic of gun violence. Howard Rahtz, drawing on decades of experience as a police officer all too familiar with the horrors that guns can cause, delves deeply into the nature and impact of this epidemic.

Rahtz explores each element of the triangle of ability, desire, and opportunity that typically characterizes gun violence. Going further, he also suggests practical, “left of bang” preventative actions—steps that could limit the violence while respecting contentious Second Amendment rights.

Howard Rahtz served for nearly two decades with the Cincinnati Police Department, retiring in 2007 as commander of the Vice Control Unit. He currently teaches at police academies in the area and speaks nationally on police reform.

Fear, Justice, and Modern True Crime

Dawn K. Cecil

For centuries, people have been drawn to true stories of crime and the justice system. But what began primarily as a literary genre focusing on murder has evolved. From docuseries and podcasts to Facebook groups and events such as CrimeCon, modern true crime has become diverse, complex, and interactive. In *Fear, Justice, and Modern True Crime*, Dawn Cecil examines the genre to uncover the messages it conveys.

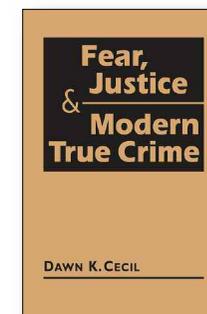

Modern true crime, Cecil argues, has the potential to inform people about crime-related issues and the criminal justice system—but it can also reinforce popular stereotypes. Her work deftly unpacks the impact of true crime stories on our perceptions, our fears, and even the process of justice.

Dawn K. Cecil is associate professor of criminology at the University of South Florida, St. Petersburg.
